

# Climate Smart Communities

MINUTES  
CLIMATE SMART COMMUNITIES COMMITTEE  
May 15, 2019, 7:00 PM

Attendees: Greg Vogler, Chris Schober, Tim Stalker, Connie Mondel, Maureen Wilson, Cara Humphrey, and guest Greg Mumby

1. Approval of Minutes from March 20, 2019 meeting

All agreed the minutes were accurate. No objections.

2. Clean Energy Community grant opportunities

Discussion ensued about which projects were best to pursue for the \$35,000 NYSERDA grant opportunity that resulted from Austerlitz becoming designated as Clean Energy Community. Final decision by the committee was to recommend to the town board that we should apply for \$34,000 to solarize the town garage, and \$1,000 towards switching to LED street lights. In both cases, tentative quotes indicate the grant money would cover 100% of the costs of each project.

3. Tim suggested an audit of garage heating system be recommended to the town board.

4. Next Meeting: Wednesday, June 19, 2019, 7:00 pm.
